Lisa Sigler, APR

Founder & Principal | Principal-in-Charge

Role on Project: Principal-in-Charge / Project Lead

Years of Experience: 30+

Education: B.A., Journalism & Public Relations, Colorado State University

Credentials: Accredited in Public Relations (APR), Public Relations Society of America

Memberships: American Water Works Association (AWWA) · Colorado WaterWise · Colorado Water Congress · Colorado Foundation for Water Education · CACI Energy/Water Council

Professional Profile

Lisa Sigler founded Sigler Communications in 1996 after a career in both corporate and agency settings. A skilled project manager of large, complex, and often controversial projects, Lisa is a seasoned strategist and counselor who has worked with dozens of Fortune 500 companies, government agencies, non-profits, and trade associations. She has successfully helped clients plan, permit, construct, and operate projects ranging from 500*million* to 2 billion.

Lisa's niche expertise includes water and public infrastructure, environmental and natural resource issues, healthcare, and corporate communications. Clients value her direct approach, fanatical commitment to client service and results, and her desire to deliver high-quality work cost-effectively.

As a Certified Women's Business Enterprise, Sigler Communications reflects Lisa's commitment to building a firm that delivers senior-level expertise on every engagement — not a firm where senior staff sell and junior staff execute.

Relevant Project Experience

Southern Delivery System — Colorado Springs Utilities (825M) Project lead from permitting through operations. Led communications for a 50-mile water delivery system requiring 400+ permits, land acquisition of 270 parcels, and multi-year rate case communications. Project completed on time to the exact day projected and 160 million under budget. AWWA Public Communications Achievement Award, 2014.

Bois d’Arc Lake — North Texas Municipal Water District (\$1.6B) Project lead for permitting and construction communications for the first major reservoir permitted in Texas in more than 30 years.

Lake Ralph Hall — Upper Trinity Regional Water District (\$500M) Project lead for construction communications.

Northern Integrated Supply Project (NISP) — Northern Water Project lead through extended federal permitting process, including EIS and Record of Decision (2022).

Lake Powell Pipeline — State of Utah / Washington County Water Conservancy District Project lead for multi-state public affairs program and EIS support.

Colorado Water: Live Like You Love It — Colorado WaterWise Project lead for the first statewide public education campaign in Colorado on water stewardship.

Security Water District Project lead for crisis communications following a nationally reported drinking water contamination.

Rio Grande Water Conservation District — Protect San Luis Valley Project lead for public affairs campaign.

United Technologies Corporation Project lead for public involvement and communications at 30 environmental sites nationally, including the Redfield Site (vapor intrusion, 800 residential homes).

ASARCO Globe Superfund / California Gulch Superfund / Rocky Flats Project lead for stakeholder engagement and community outreach.

Centura Health / St. Anthony North / Good Samaritan Medical Center Strategic communications and market launch support.

Texas Instruments / Newmont Mining / Texas Health Sustainability report development and communications.

Janet Rummel, APR, CPRC

Senior Vice President | Project Manager

Role on Project: Project Manager / Senior Communications Lead

Years of Experience: 20+

Education: B.A., Journalism, Texas State University

Credentials: Accredited in Public Relations (APR) · Certified Public Relations Counselor (CPRC) · FEMA Advanced Public Information Officer · National Incident Management System (NIMS) certified

Memberships: American Water Works Association (AWWA) · Texas AWWA · Georgia Association of Water Professionals

Awards: AWWA Public Communications Award (SDS/Colorado Springs Utilities, 2014) · Five Texas AWWA Communications Awards (NTMWD, 2017) · Featured case study, AWWA Risk Communication Guide for Water Utilities, 2019

Professional Profile

Janet Rummel brings more than 20 years of communications experience to Sigler, with deep expertise in water utility communications, crisis and issues management, stakeholder engagement, and public involvement for major infrastructure projects. She has served as the communications lead on some of the largest and most complex water projects in the country, and as the crisis communications manager for a regional water authority serving 1.8 million customers.

Janet is a FEMA Advanced Public Information Officer and NIMS-certified — credentials that reflect her extensive experience managing communications during emergencies, including boil-water advisories, chemical spills, pipeline failures, and nationally amplified water quality controversies.

Relevant Project Experience

North Texas Municipal Water District (NTMWD) Senior communications lead for a regional water authority serving 1.8 million customers. Led crisis communications through a pipeline break flooding 13 homes, an ammonia leak at the water treatment plant, chemical and wastewater spills, an employee fatality, and a nationally amplified water quality controversy involving Erin Brockovich. Received five Texas AWWA Communications Awards, 2017.

Southern Delivery System — Colorado Springs Utilities (\$825M) Senior communications lead. AWWA Public Communications Achievement Award, 2014.

Gross Reservoir Expansion — Denver Water Public involvement and stakeholder engagement. Placed 25 articles in regional and trade media; shifted coverage from opposition-framed to project-factual.

Security Water District Crisis communications lead for nationally reported drinking water contamination.

City of Greeley — Lead Service Line Program Led communications for lead service line inspection and replacement program: campaign slogan, customer survey guidance, messaging, fact sheets, FAQs, maps, infographics, news releases, and website content.

PFAS and Regulatory Communications Supported multiple utilities in developing communications for EPA PFAS health advisories and lead service line regulatory requirements.

Crisis Preparedness Developed crisis preparedness plans for utility clients covering boil-water advisories, chemical spills, system failures, drought response, and serious workplace injuries.

Patrice Quintero

Senior Consultant

Role on Project: Senior Communications Consultant / Utility and Infrastructure Communications

Years of Experience: 20+

Education: M.A., Journalism, University of Colorado Boulder (National Association of Hispanic Journalists scholarship; Gerald A. Bean scholarship; double fellowship recipient) B.A., English, University of California, Davis

Professional Profile

Patrice Quintero brings more than 20 years of communications and public relations experience to Sigler, with deep expertise in utilities, economic development, government, infrastructure, crisis communications, executive communications, community relations, media relations, and issues management.

Her career spans some of Colorado's most prominent institutions. She spent nearly 15 years at Colorado Springs Utilities, where she served as Senior Public Affairs Specialist, building expertise in communicating complex utility operations to diverse public audiences. She went on to serve as Communications Manager and then Vice President of Communications at the Colorado Springs Chamber & EDC, where she led the organization's communications strategy through a period of significant regional growth.

Earlier in her career, she served as Communications Director at USA Cycling and as an Associate Producer for NBCOlympics.com during the 2000 Sydney Games. Patrice brings the kind of practical, roll-up-your-sleeves energy and substantive public-sector experience that complex infrastructure and issues work demands.

Core Competencies

Strategic communications planning · Utility and infrastructure communications · Crisis and issues management · Executive communications · Community and stakeholder relations · Media relations and training · Economic development communications

Chuck Montera

Senior Consultant

Role on Project: Senior Communications Consultant / Media Relations and Strategic Messaging

Years of Experience: 25+

Education: Available upon request.

Professional Profile

Chuck Montera is a senior communications professional with more than 25 years of experience in media relations, strategic communications, and public affairs. He brings deep expertise in developing and executing communications strategies for complex organizations and high-stakes issues, with a track record of building credibility and managing narratives in contested environments.

Core Competencies

Strategic communications planning and counsel · Media relations and spokesperson training · Issues management and crisis communications · Stakeholder outreach and engagement · Branding and messaging · Social media strategy

Bryn Webster

Account Manager

Role on Project: Account Manager / Content and Digital Communications

Years of Experience: 8+

Education: B.A., English Writing, Wheaton College (summa cum laude)

Memberships: PRSA Colorado

Professional Profile

Bryn Webster has been supporting the Sigler team for over eight years, providing clients with writing, social media, communications, and project management skills. A content generation expert and manager, she coordinates website development, media communications, collateral development, social media creation and implementation, stakeholder database management, and project analytics.

Bryn has communications experience across infrastructure, water, professional trade associations, healthcare, senior living, and environmental issues. She has helped lead communications on two of the largest new water projects in Texas and developed and executed media relations strategies that placed key client stories in local and trade news across the country.

Relevant Project Experience

Bois d'Arc Lake — NTMWD (\$1.6B) Account manager. Managed website, event collateral, social media campaigns, and e-news coordination.

Lake Ralph Hall — UTRWD (\$500M) Project management including website redesign, event collateral, social media, and e-news coordination.

Upper Trinity Regional Water District Project management and content strategy.

North Texas Municipal Water District Social media support and media monitoring.

Security Water and Sanitation Districts Copywriting and project management.

Christian Living Communities / Holly Creek Life Plan Community Social media, media relations, event coordination, and copywriting.

Plummer Website redesign, social media, and project management.
